# Chimney and Flue Sweeping

## Why Dr Flue?

Dr Flue is here to make life easier and take some pain out of managing properties,

- Built in property manager \*
  - Can look to connect directly to your CRM
  - Upload/Download property lists
- 90 day reminder
- Sweeping is a legal requirement for insurance
- Prepay, so let the tenant choose the day
- Visual view of property status
- All automated so you don't have to be chasing people on phones

\* **Please Note:** Dr Flue has a special properties manager section that must be setup and prepared by Dr Flue admin staff.

# Who is Dr Flue

Buying NZ Made

Dr Flue is a staple in the NZ market for chimney/flue sweeping and repairs. The industry like many other in tourism, food and even auto industry have had to change over the years. Dr FLue also has had to move with the time and have listened to the feedback we have been given. Everyone wanted better service, a set price and most of all the best quality work by a trusted company.

Sweep around the country also wanted to know they had future work and a way of better managing booking so clients did not get forgotten and so they didn't have to travel to 4 different parts of Auckland in one day wasting most of the day in traffic.

Together we have pulled the best resources of web, with bocapa.com, the best of sweep and industry knowledge and have created a system that we hope help and benefits the industry as a whole, while making life for property managers a little easier.

# Safety

## Health and Safety

We offer the best price, factoring in a responsible wage, decent health and safety for our employees. We keep our experienced staff.

We maintain our equipment and fleet to ensure we can operate all year round.

We work with legal, insurance and other agencies to ensure a professional operation through and through.

Things to remember are,

- We are fully insured
- All sweeps have completed NZ Site Wise training
  - Means we know what we are doing
  - Also that you are covered if an accident was to happen

# Security

Is my data and identification safe

We take security and privacy extremely seriously so have built the system with this in mind so new owners of properties are unable to see past work carried out and other property managers have no way of seeing your list of properties.

What we can say is the web team works with clients like Air New Zealand and New Zealand Motor Caravan Assoc. Many of our clients store personal details and financial info about their clients and members so we are often randomly security tested and audited.

Dr Flue does not sell or provide any third parties with any of our data, except for where we legally are obliged too or if the request is supported by a legal request as in a court order for an insurance company or when a sweep last happened or what maintenance was carried out.
